INDEX TO VOLUME 29

Subject Index

Abortion
Abortion Study Finds No Long-Term Ill Effects on Emotional Well-Being, Digest, p. 193.

Attitudes of General Practitioners in Northern Ireland Toward Abortion and Family Planning, Research Note, C. Francome, p. 234.

Clinic Violence Ebbed in 1996, Update, p. 50.

Courts Weigh Rights at Clinics, Update, p. 50.

Does Abortion Increase the Risk of Breast Cancer? Results of a Meta-Analysis and a Cohort Study Differ, Digest, p. 90.

Effects of Economic Conditions and Access to Reproductive Health Services on State Abortion Rates and Birthrates, see **Law and Policy**.

In Post-Soviet Russia, Fertility Is on the Decline; Marriage and Childbearing Are Occurring Earlier, see **Fertility: Planning and Effects.**

Measurement of Public Opinion on Abortion: The Effects of Survey Design, L. L. Bumpass, p. 177.

Methotrexate with Vaginal Misoprostol Is a Safe, Highly Effective Regimen for Early Medical Abortion, Digest, p. 45.

New Picture of Abortion in Russia, Update, p. 247.

New Twist to Medical Abortion, Update, p. 150.

Poland Eases Restrictions on Abortion, Update, p. 5.

Repeat Abortions in Canada, 1975–1993, W. J. Millar, S. Wadhera and S. K. Henshaw, p. 20.

Teenage Abortion and Pregnancy Statistics by State, 1992, see **Teenagers.**

Training Family Practice Residents in Abortion and Other Reproductive Health Care: A Nationwide Survey, J. E. Steinauer, T. DePineres, A. M. Robert, J. Westfall and P. Darney, p. 222.

Vatican Pulls Funds from UNICEF, Update, p. 4.

Women's Reproductive Choices: The Impact of Medicaid Funding Restrictions, see **Law and Policy**.

Adoption
Young Mothers Who Choose Adoption May Be Regretful, But Not Usually Depressed, see **Teenagers**.

Barrier Methods
Association Between Substance Use, Condom Use and Sexual Risk Among Low-Income Women, see **Contraceptive Practice**.

Consistency of Condom Use Among Users of Injectable Contraceptives, H. Sangi-Haghpeykar, A. N. Pointdexter 3rd and L. Bateman, p. 67.

Factors Associated with Use of the Female Condom, D. F. Sly, D. Quadagno, D. F. Harrison, I. W. Eberstein, K. Riehman and M. Bailey, Research Note, p. 181.

Swiss Program Improves Condom Use, but Levels of Other HIV Risk-Related Behavior Are Unchanged, Digest, p. 237.

Use of Condoms with Other Contraceptive Methods Among Young Men and Women, J. S. Santelli, C. W. Warren, R. Lowry, E. Sogolow, J. Collins, L. Kann, R. B. Kaufmann and D. D. Celentano, p. 261.

Who's at Risk for Condom Failure? Update, p. 151.

Women Who Use Barrier Methods with Spermicide May Have Higher Risk of Urinary Tract Infection, Digest, p. 48.

Young Men's Experience with Condom Breakage, L. D. Lindberg, F. L. Sonenstein, L. Ku and G. Levine, p. 128.

Breastfeeding
Breastfeeding May Prevent Diabetes, Update, p. 199.

Contraception: General
Attitudes of General Practitioners in Northern Ireland Toward Abortion and Family Planning, see **Abortion**.

Provision of Public-Sector Services by Family Planning Agencies in 1995, see **Service Providers**.

Public Knowledge and Perceptions About Unplanned Pregnancy and Contraception in Three Countries, see **Fertility: Planning and Effects**.

Training Family Practice Residents in Abortion and Other Reproductive Health Care: A Nationwide Survey, see **Abortion**.

Urban Adolescent Females' Views on the Implant and Contraceptive Decision-Making: A Double Paradox, see **Hormonal Implants and Injectables**.

Contraceptive Practice
Association Between Substance Use, Condom Use and Sexual Risk Among Low-Income Women, D. F. Sly, D. Quadagno, D. F. Harrison, I. Eberstein, and K. Riehman, p. 132.

By Six Months Postpartum, Many Teenagers Are Not Using a Method Effectively, Digest, p. 289.

Consistency of Condom Use Among Users of Injectable Contraceptives, see **Barrier Methods**.

Factors Associated with Use of the Female Condom, see **Barrier Methods**.

In Post-Soviet Russia, Fertility Is on the Decline; Marriage and Childbearing Are Occurring Earlier, see **Fertility: Planning and Effects**.

Medical Care Cost Savings from Adolescent Contraceptive Use, J. Trussell, J. Koenig, F. Stewart and J. E. Darroch, p. 248.

On Contraception, the Navy Is at Sea, Update, p. 150.

Oral Contraceptive Use and Protective Behavior After Missed Pills, see **Oral Contraceptives**.

Swiss Program Improves Condom Use, but Levels of Other HIV Risk-Related Behavior Are Unchanged, see **Barrier Methods**.

Urban Adolescent Females' Views on the Implant and Contraceptive Decision-Making: A Double Paradox, see **Hormonal Implants and Injectables**.

Use of Condoms with Other Contraceptive Methods Among Young Men and Women, see **Barrier Methods**.

Emergency Contraception
Awareness of Emergency Contraception Is Limited Among American Adults, Digest, p. 294.

Emergency Contraception: A National Survey of Adolescent Health Experts, M. A. Gold, A. Schein and S. M. Coupey, p. 15.

Pill Approved for Emergency Use, Update, p. 51.

Evaluation of Programs
Does Condom Availability Make a Difference? An Evaluation of Philadelphia's Health Resource Centers, F. F. Furstenberg, Jr., L. M. Geitz, J. O. Teitler, and C. C. Weiss, p. 123.

Education Now and Babies Later (ENABL): Life History of a Campaign to Postpone Sexual Involvement, H. H. Cagampang, R. P. Barth, M. Korpi and D. Kirby, p. 109.

Impact of the Postponing Sexual Involvement Curriculum Among Youths in California, D. Kirby, M. Korpi, R. P. Barth and H. H. Cagampang, p. 100.

Incentives Draw Teenage Mothers to Support Groups, but Participation Does Not Prevent Repeat Pregnancy, see **Teenagers.**

Pregnancy Prevention Among Urban Adolescents Younger than 15: Results of the 'In Your Face' Program, L. Tiezzi, J. Lipshutz, N. Wrobleski, R. D. Vaughan, and J. F. McCarthy, p. 173.

Screening Criteria for *Chlamydia trachomatis* in Family Planning Clinics: Accounting for Prevalence and Clients' Characteristics, see **Sexually Transmitted Diseases**.

Selective Screening for Chlamydial Infection in Women: A Comparison of Three Sets of Criteria, see **Sexually Transmitted Diseases**.

Fertility: Planning and Effects
Desired Family Size and Son Preference Among Hispanic Women of Low Socioeconomic Status, J. B. Unger and G. B. Molina, Research Note, p. 284.

Economic Correlates of Nonmarital Childbearing Among Adult Women, S. D. Hoffman and E. M. Foster, Research Note, p. 137.

Effects of Economic Conditions and Access to Reproductive Health Services on State Abortion Rates and Birthrates, see **Law and Policy**.

In Post-Soviet Russia, Fertility Is on the Decline; Marriage and Childbearing Are Occurring Earlier, Digest, p. 92.

Japanese Women Want More Children than Their Total Fertility Rate Suggests, Digest, p. 291.

1995 U.S. Fertility Rate Was Lower than Any Since the Mid-1980s, Digest, p. 47.

Public Knowledge and Perceptions About Unplanned Pregnancy and Contraception in Three Countries, S. Delbanco, J. Lundy, T. Hoff, M. Parker and M. D. Smith, p. 70.

Public Perceptions About Unplanned Preg-

nancy, J. Mauldon and S. Delbanco, p. 25.

Rural Adolescent Pregnancy: A View from the South, T. Bennett, J. D. Skatrud, P. Guild, F. Loda and L. V. Klerman, p. 256.

Teenage Abortion and Pregnancy Statistics by State, 1992, see **Teenagers**.

Women Who Were Born to Teenage Mothers Have Nearly Double the Risk of Early Childbearing, Digest, p. 243.

Women's Reproductive Choices: The Impact of Medicaid Funding Restrictions, see **Law and Policy**.

Government Policy, Programming and Funding

Effects of Economic Conditions and Access to Reproductive Health Services on State Abortion Rates and Birthrates, see **Law and Policy**.

Medical Care Cost Savings from Adolescent Contraceptive Use, see **Contraceptive Practice**.

Pregnancy Wantedness and Adverse Pregnancy Outcomes: Differences by Race and Medicaid Status, see **Pregnancy and Childbirth**.

Provision of Public-Sector Services by Family Planning Agencies in 1995, see **Service Providers**.

Public Sources of Prenatal Care Are Not Necessarily the Best for Poor Women, Digest, p. 194.

Welfare Drunks and Other Myths, Update, p. 98.

Women's Reproductive Choices: The Impact of Medicaid Funding Restrictions, see **Law and Policy**.

Hormonal Implants and Injectables

Consistency of Condom Use Among Users of Injectable Contraceptives, see **Barrier Methods**.

For Teenagers, Implants Beat the Pill, Update, p. 99.

Urban Adolescent Females' Views on the Implant and Contraceptive Decision-Making: A Double Paradox, H. Kuiper, S. Miller, E. Martinez, L. Loeb and P. Darney, p. 167.

Law and Policy

Can Statutory Rape Laws Be Effective in Preventing Adolescent Pregnancy? P. Donovan, Special Report, p. 30.

Colorado Parental Rights Amendment: How and Why It Failed, P. Donovan, Special Report, p. 187.

Courts Weigh Rights at Clinics, see **Abortion**.

Effects of Economic Conditions and Access to Reproductive Health Services on State Abortion Rates and Birthrates, S. Matthews, D. Ribar and M. Wilhelm, p. 52.

State Actions on Reproductive Health Issues in 1996, T. Sollom, Special Report, p. 35.

Women's Reproductive Choices: The Impact of Medicaid Funding Restrictions, D. Haas-Wilson, p. 228.

Males

Adult Partners of Teenage Mothers Frequently Have an Inadequate Education, see **Teenagers**.

Age Differences Between Minors Who Give Birth and Their Adult Partners, see **Teenagers**.

Attitudes Toward Sexual Responsibility and Parenting: An Exploratory Study of Young Urban Males, M. Gohel, J. J. Diamond and C. V. Chambers, Research Note, p. 280.

Incarcerated Youths Want to Be Dads, Update, p. 99.

Men's Behavior Change Following Infection with a Sexually Transmitted Disease, see **Sexual Behavior**.

Sexual Initiation with Older Male Partners and Subsequent HIV Risk Behavior Among Female Adolescents, see **Sexual Behavior**.

Young Men's Experience with Condom Breakage, see **Barrier Methods**.

Marriage and the Family

Children from Disrupted Families Begin Having Sex, and Children, at Early Age, see **Sexual Behavior**.

Economic Correlates of Nonmarital Childbearing Among Adult Women, see **Fertility: Planning and Effects**.

Economic Resources Lag Among Children Whose Parents Are Cohabiting, Digest, p. 143.

In Intact Poor Families, Parents Affect Teenagers' Well-Being Unequally, see **Teenagers**.

In Post-Soviet Russia, Fertility Is on the Decline; Marriage and Childbearing Are Occurring Earlier, see **Fertility: Planning and Effects**.

U.S. Families Post–Brady Bunch, Update, p. 50.

Maternal and Child Health

Birth Weight and Cardiovascular Risk, Update, p. 246.

Black Women Who Douche Have a Fourfold Increase in Ectopic Pregnancy Risk, Digest, p. 292.

Health After a Poor Birth Outcome, Update, p. 247.

In Multiple Gestations, Less Is More, Update, p. 4.

Maternal Age and Birth Outcomes: Data from New Jersey, N. E. Reichman and D. L. Pagnini, p. 268.

Mother's Birthweight Counts, Too, Update, p. 151.

New Approach to Postpartum Care, Update, p. 98.

Perinatally Acquired AIDS Declines, Update, p. 50.

Pregnancy-Related Deaths in 1987–1990 Were Nearly Four Times as Likely Among Blacks as Among Whites, see **Pregnancy and Childbirth**.

Rate of Low Birth Weight Among Asians in California Is Close to U.S. Goal, but Varies by National Origin, Digest, p. 144.

Risk Not Raised by Smoking, Update, p. 4.

Risk of Perinatal Problems Raised by Antidepressant Use During Pregnancy, Digest, p. 46.

Social Networks in Poor Neighborhoods Reduce Odds of Low Birth Weight, see **Pregnancy and Childbirth**.

Terrible Twos... Then Puberty? Update, p. 99.

There's No Escaping History, Update, p. 150.

Use of Invasive Procedures During Pregnancy May Double Risk of Mother-to-Infant HIV Transmission, see **Sexually Transmitted Diseases**.

Vitamin A and Birth Defects Redux, Update, p. 246.

When Does Heart Disease Begin? Update, p. 4.

Oral Contraceptives

New Study Casts Doubt on the Association Between Third-Generation Pills and Venous Thromboembolism, Digest, p. 192.

Oral Contraceptive Use and Protective Behavior After Missed Pills, D. Oakley, L. Potter, E. de Leon-Wong and C. Visness, Research Note, p. 277.

Pill-Related Stroke Risk Is Low, Especially if Users Lack Other Risk Factors, Digest, p. 95.

Pill Use Makes Minimal Contribution to the Risk of Myocardial Infarction, Digest, p. 242.

Slightly Increased Risk of Breast Cancer Among Pill Users Disappears 10 Years After Discontinuation, Digest, p. 147.

Pregnancy and Childbirth

Abused Women Delay Prenatal Care, Update, p. 246.

Easily Available Data May Help Predict the Need for an Operative Delivery, Digest, p. 196.

Ectopics May Resolve Themselves, Update, p. 5.

Factors Associated with Adolescents' Risk for Late Entry into Prenatal Care, see **Teenagers**.

Folic Acid Use Is Rising in the UK, Update, p. 199.

Inadequate Weight Gain in Pregnancy Compounds Risk of Low Birth Weight Among Smokers' Infants, Digest, p. 290.

Incentives Draw Teenage Mothers to Support Groups, but Participation Does Not Prevent Repeat Pregnancy, see **Teenagers**.

Jail May Improve Birth Weight, Update, p. 198.

Maternal Age and Birth Outcomes: Data from New Jersey, see **Maternal and Child Health**.

Mixed Results for Birth Center Care, Update, p. 151.

Nurse-Midwives Attending Healthy Women's Deliveries Use Fewer Interventions than Physicians, Digest, p. 239.

Planned Home Birth Can Be as Safe as Hospital Delivery for Women with Low-Risk Pregnancies, Digest, p. 141.

Pregnancy-Related Deaths in 1987–1990 Were Nearly Four Times as Likely Among Blacks as Among Whites, Digest, p. 288.

Pregnancy Wantedness and Adverse Pregnancy Outcomes: Differences by Race and Medicaid Status, M. R. Sable, J. C. Spencer, J. W. Stockbauer, W. F. Schramm, V. Howell and A. A. Herman, p. 76.

Public Sources of Prenatal Care Are Not Necessarily the Best for Poor Women, see **Government Policy, Programming and Funding**.

Rate of Low Birth Weight Among Asians in California Is Close to U.S. Goal, but Varies by National Origin, see **Maternal and Child Health**.

Risk of Perinatal Problems Raised by Antidepressant Use During Pregnancy, see **Maternal and Child Health**.

Smoke Gets in Your Placenta, Update, p. 98.

Social Networks in Poor Neighborhoods Reduce Odds of Low Birth Weight, Digest, p. 293.

Un–User-Friendly Care Won't Be Used, Update, p. 5.

Use of Invasive Procedures During Pregnancy May Double Risk of Mother-to-Infant HIV Transmission, see **Sexually Transmitted Diseases**.

Public Opinion

Awareness of Emergency Contraception Is Limited Among American Adults, see **Emergency Contraception**.

Measurement of Public Opinion on Abortion: The Effects of Survey Design, see **Abortion**.

Public Knowledge and Perceptions About Unplanned Pregnancy and Contraception in Three Countries, see **Fertility: Planning and Effects**.

Public Perceptions About Unplanned Pregnancy, see **Fertility: Planning and Effects**.

Times They Are A-Changin', Mostly, Update, p. 151.

Reproductive Health

Black Women Who Douche Have a Fourfold Increase in Ectopic Pregnancy Risk, see **Maternal and Child Health**.

Do X Rays Affect Men's Babies? Update, p. 99.

Does Abortion Increase the Risk of Breast Cancer? Results of a Meta-Analysis and a Cohort Study Differ, see **Abortion**.

Environmental Effects on Reproductive Health: The Endocrine Disruption Hypothesis, D. Hollander, Special Report, p. 82.

Female Circumcision in the U.S.?, Update, p. 246.

Limited Benefits of Vaginal Pap Test, Update, p. 4.

Physicians Often Omit Sexual Health Services from Adolescents' Care, see **Teenagers**.

Poorly Managed Care for the Poor, Update, p. 199.

Slightly Increased Risk of Breast Cancer Among Pill Users Disappears 10 Years After Discontinuation, see **Oral Contraceptives**.

Women Who Use Barrier Methods with Spermicide May Have Higher Risk of Urinary Tract Infection, see **Barrier Methods.**

Service Providers

Attitudes of General Practitioners in Northern Ireland Toward Abortion and Family Planning, see **Abortion**.

Does Condom Availability Make a Difference? An Evaluation of Philadelphia's Health Resource Centers, see **Evaluation of Programs**.

Emergency Contraception: A National Survey of Adolescent Health Experts, see **Emergency Contraception**.

Increasing the Availability of Vasectomy in Public-Sector Clinics, see **Sterilization**.

Medical Care Cost Savings from Adolescent Contraceptive Use, see **Contraceptive Practice**.

Physicians Often Omit Sexual Health Services from Adolescents' Care, see **Teenagers**.

Provision of Public-Sector Services by Family Planning Agencies in 1995, J. J. Frost and M. Bolzan, p. 6.

Risk-Assessment Tool for Integrated Reproductive Health Services, W. Cates, Jr., Viewpoint, p. 41.

Screening Criteria for *Chlamydia trachomatis* in Family Planning Clinics: Accounting for Prevalence and Clients' Characteristics, see **Sexually Transmitted Diseases**.

Selective Screening for Chlamydial Infection in Women: A Comparison of Three Sets of Criteria, see **Sexually Transmitted Diseases**.

Training Family Practice Residents in Abortion and Other Reproductive Health Care: A Nationwide Survey, see **Abortion**.

Sex Education

Education Now and Babies Later (ENABL): Life History of a Campaign to Postpone Sexual Involvement, see **Evaluation of Programs**.

Impact of the Postponing Sexual Involvement Curriculum Among Youths in California, see **Evaluation of Programs**.

Pregnancy Prevention Among Urban Adolescents Younger than 15: Results of the 'In Your Face' Program, see **Evaluation of Programs**.

Sexual Behavior

Adolescent Pregnancy and Sexual Risk-Taking Among Sexually Abused Girls, see **Teenagers**.

Ah, Yes, I Remember It Well, Update, p. 50.

Association Between Substance Use, Condom Use and Sexual Risk Among Low-Income Women, see **Contraceptive Practice**.

Attitudes Toward Sexual Responsibility and Parenting: An Exploratory Study of Young Urban Males, see **Males**.

Children from Disrupted Families Begin Having Sex, and Children, at Early Age, Digest, p. 240.

Consistency of Self-Reported Initiation of Sexual Activity, J. L. Lauritsen and C. G. Swicegood, p. 215.

Does Condom Availability Make a Difference? An Evaluation of Philadelphia's Health Resource Centers, see **Evaluation of Programs**.

Early Sexual Activity, but Not Childhood Sexual Abuse, Increases the Odds of Teenage Pregnancy, Digest, p. 195.

Impact of the Postponing Sexual Involvement Curriculum Among Youths in California, see **Evaluation of Programs**.

Men's Behavior Change Following Infection with a Sexually Transmitted Disease, B. Payn, K. Tanfer, J. O. G. Billy and W. R. Grady, p. 152.

Most Japanese Students Do Not Have Intercourse Until After Adolescence, Digest, p. 145.

Rethinking That First Time, Update, p. 246.

Sexual Abuse History and Number of Sex Partners Among Female Adolescents, see **Teenagers**.

Sexual Initiation with Older Male Partners and Subsequent HIV Risk Behavior Among Female Adolescents, K. S. Miller, L. F. Clark and J. S. Moore, p. 212.

Swiss Program Improves Condom Use, but Levels of Other HIV Risk-Related Behavior Are Unchanged, see **Barrier Methods**.

You Want to Ask Me About What? Update, p. 247.

Sexually Transmitted Diseases

Confronting a Hidden Epidemic: The Institute of Medicine's Report on Sexually Transmitted Diseases, P. Donovan, Special Report, p. 87.

Men's Behavior Change Following Infection With a Sexually Transmitted Disease, see **Sexual Behavior**.

Number of People with AIDS Is Up, Update, p. 99.

Screening Criteria for *Chlamydia trachomatis* in Family Planning Clinics: Accounting for Prevalence and Clients' Characteristics, Y. Han, F. B. Coles and S. Hipp, p. 163.

Selective Screening for Chlamydial Infection in Women: A Comparison of Three Sets of Criteria, J. M. Marrazzo, D. Fine, C. L. Celum, S. DeLisle and H. H. Handsfield, p. 158.

STD Deaths Rise Among Women, Update, p. 247.

Swiss Program Improves Condom Use, but Levels of Other HIV Risk-Related Behavior Are Unchanged, see **Barrier Methods**.

Syphilis Is Epidemic in Russia, Update, p. 199.

Use of Invasive Procedures During Pregnancy May Double Risk of Mother-to-Infant HIV Transmission, Digest, p. 44.

Women's Chlamydia Rates Still High, Update, p. 150.

Sterilization

Increasing the Availability of Vasectomy in Public-Sector Clinics, J. M. Haws, M. McKenzie, M. Mehta and A. E. Pollack, Research Note, p. 185.

No Prostate Cancer–Vasectomy Link, Update, p. 5.

Sterilization and Ovarian Cancer, Update, p. 199.

Sterilization: No End to Ectopics, Update, p. 98.

Teenagers

Adolescent Pregnancy and Sexual Risk-Taking Among Sexually Abused Girls, J. L. Stock, M. A. Bell, D. K. Boyer and F. A. Connell, p. 200.

Adult Partners of Teenage Mothers Frequently Have an Inadequate Education, Digest, p. 238.

Age Differences Between Minors Who Give Birth and Their Adult Partners, L. D. Lindberg, F. L. Sonenstein, L. Ku and G. Martinez, p. 61.

Attendance at Parenting Classes, Update, p. 198.

Attitudes Toward Sexual Responsibility and Parenting: An Exploratory Study of Young Urban Males, see **Males**.

By Six Months Postpartum, Many Teenagers Are Not Using a Method Effectively, see **Contraceptive Practice**.

Can Statutory Rape Laws Be Effective in Preventing Adolescent Pregnancy? see **Law and Policy**.

Children from Disrupted Families Begin Having Sex, and Children, at Early Age, see **Sexual Behavior**.

Does Condom Availability Make a Difference? An Evaluation of Philadelphia's Health Resource Centers, see **Evaluation of Programs**.

Early Sexual Activity, but Not Childhood Sexual Abuse, Increases the Odds of Teenage Preg-

nancy, see **Sexual Behavior**.

Education Now and Babies Later (ENABL): Life History of a Campaign to Postpone Sexual Involvement, see **Evaluation of Programs**.

Emergency Contraception: A National Survey of Adolescent Health Experts, see **Emergency Contraception**.

Factors Associated with Adolescents' Risk for Late Entry into Prenatal Care, C. M. Wiemann, A. B. Berenson, L. Garcia-del Pino and S. L. McCombs, p. 273.

Few Danish Teenagers Are Parents, Update, p. 198.

For Teenagers, Implants Beat the Pill, see **Hormonal Implants and Injectables**.

Gaps in Health Care for Teenagers, Update, p. 247.

Impact of the Postponing Sexual Involvement Curriculum Among Youths in California, see **Evaluation of Programs**.

Incentives Draw Teenage Mothers to Support Groups, but Participation Does Not Prevent Repeat Pregnancy, Digest, p. 191.

In Intact Poor Families, Parents Affect Teenagers' Well-Being Unequally, Digest, p. 94.

Medical Care Cost Savings from Adolescent Contraceptive Use, see **Contraceptive Practice**.

Physicians Often Omit Sexual Health Services from Adolescents' Care, Digest, p. 91.

Pregnancy Prevention Among Urban Adolescents Younger than 15: Results of the 'In Your Face' Program, see **Evaluation of Programs**.

Pregnant Teenagers Lay Off Drugs, Update, p. 51.

Rural Adolescent Pregnancy: A View from the South, see **Fertility: Planning and Effects**.

Sexual Abuse History and Number of Sex Partners Among Female Adolescents, T. Luster and S. A. Small, p. 204.

Sexual Initiation with Older Male Partners and Subsequent HIV Risk Behavior Among Female Adolescents, see **Sexual Behavior**.

Take Teenagers with a Grain of Salt, Update, p. 198.

Teenage Abortion and Pregnancy Statistics by State, 1992, S. K. Henshaw, p. 115.

Teenagers, Pregnancy and Attitude, Update, p. 5.

Urban Adolescent Females' Views on the Implant and Contraceptive Decision-Making: A Double Paradox, see **Hormonal Implants and Injectables**.

Use of Condoms with Other Contraceptive Methods Among Young Men and Women, see **Barrier Methods**.

What's Love Got to Do With It? Update, p. 150.

Women Who Were Born to Teenage Mothers Have Nearly Double the Risk of Early Childbearing, see **Fertility: Planning and Effects**.

Young Men's Experience with Condom Breakage, see **Barrier Methods**.

Young Mothers Who Choose Adoption May Be Regretful, But Not Usually Depressed, Digest, p. 146.
